

International Conference on Youth and Adolescent Health

Date: 9th -11th Mar, 2017

Organized by:

Venue
Convention Centre, New Delhi Municipal Council,
Parliament Street,
New Delhi, India

Dear Friends and Colleagues,

It gives us immense pleasure to invite you to the International Conference on Youth & Adolescent Health 2017 being organized by Indian Association for Adolescent Health (IAAH), which will be held from 9th to 11th March, 2016 at NDMC Convention Centre, New Delhi, India.

The theme of the conference is "Young Generation: Our Global Edge". Globally, 1.2 billion adolescents stand at the cross roads of childhood and adulthood. India alone is home to 243 million adolescents. Investing in adolescents today can break entrenched cycles of poverty and inequity (UNICEF, 2011). Thus, it serves an opportunity to transform the society by nurturing them properly and tapping the potential of this generation. It is well known fact that as adolescents flourish so do their communities. Adolescents in India constitute nearly one quarter of the total population of the country thereby making India one of the youngest countries in the world. This provides an opportune platform for India to take advantage and nurture the adolescence for socio-economic growth of the country.

The 3 day academic and technical feast will offer ample prospects to discuss important issues, sharing information and exchange ideas in the field of adolescence and youth. Your active participation and contribution in various scientific sessions will make this event a real success. Looking forward to welcoming you in Delhi, India.

With warm regards
Dr. Prema Bali,
Founding President, IAAH

Indian Association for Adolescent Health

It is a Non-Governmental National Organization of professionals who share the interest in the programs and activities to meet the health care needs of young people all over the country. The goal of the organization is to foster development of regional and state-level associations for promotion of youth and adolescent health. IAAH ensures meaningful youth participation in all its programs and activities. IAAH realizes its role as enhancer of the health of adolescents and youth through education, research and high quality health care. IAAH maintains a multi-disciplinary composition of its members.
